

STATE RESPONSES TO TERRORIST

SAŽETAK: Prvu deceniju 21. veka obeležila je ekspanzija terorizma. Ta pošast sve više uzima maha i ugrožava svetsku stabilnost i bezbednost. Autor je u radu prezentovao antiterorističke mere ukazujući na njihov značaj u sveukupnoj borbi protiv terorizma, ali i na probleme prilikom njihove primene u praksi. Bilo da ima sveobuhvatan ili selektivan pristup, borba protiv terorizma mora biti fleksibilna tj. uključivati različite elemente, kao što su: identifikacija programa kojima bi se sprečili teroristički napadi, destabilizovale i uništile terorističke organizacije; reakcija na terorističke incidente; minimiziranje štete, prekid napada i izvođenje terorista pred „lice“ pravde.

KLJUČNE REČI: terorizam, svetska bezbednost, borba protiv terorizma, antiterorizam.

SUMMARY: The first decade of the 21st century was marked by rising terrorist activity. The scourge of terrorism is on the rise, threatening the global stability and security. The work will present diverse anti-terrorism measures and their importance in fighting terrorism, as well as the problems of their implementation in practice. Excessive responses to acts of terrorism can obviously undermine human and individual freedom. Such acts can take many forms, which require different levels of response. The fight against terrorism, therefore, may include a comprehensive or a selective approach and a flexible strategy, which includes identification programmes to prevent terrorist attacks, disrupt and destroy terrorist organizations; responses to terrorist incidents; and coordinated efforts to minimize damage, terminate terrorist attacks, and bring terrorists to justice. State responses should include specific measures designed to deter or prevent terrorist attacks and to limit the damage from the effects of terrorist incidents.

KEYWORDS: terrorism, global security, fight against terrorism, counter-terrorism.
