

ECONOMIC SECURITY AS A FUNCTION OF CORPORATE SECURITY:

A STAKEHOLDERS' PERSPECTIVE

ABSTRACT: *Stakeholders have a dramatic impact on the corporate security organisation within a corporate system. Equity holders, managers, employees, trade unions, and other internal stakeholders exert the greatest influence on the corporate security system. As corporate security operations expand and become intertwined with different business processes, corporate security's impact on the company revenue grows higher. This paper will discuss the results of the study conducted among the staff of the NIS j.s.c. Procurement Sector. The goal of this paper is to examine how the employees, being significant internal stakeholders, perceive the role of corporate security in NIS j.s.c. in their core business practices, and to identify activities requiring improvement so as to raise the business operations security to a higher level.*

KEY WORDS: *corporate security, economic security, stakeholder, internal stakeholders.*
